National survey

Exploring data quality monitoring in Australian clinical studies survey

Consent

I have been provided with the participant information sheet (attached below) about the project 'Exploring data quality monitoring within Australian clinical studies survey'. I have been advised of the potential risks and burdens associated with this research, which include completing a 20 to 30 minute online survey.

I understand that my participation in this research is voluntary, I am free to refuse to participate and I am free to withdraw from the research at any time. If I choose not to participate or withdraw consent it will not affect my treatment in anyway and/or my relationship with the University of Wollongong. I acknowledge that any responses given by me as part of this survey form my opinions and practices not necessarily those of the organisation with whom I am employed. I understand that my identifiable responses will not be shared with my organisation or anyone outside of the research team.

If I have any enquiries about the research, I can contact Ms Lauren Houston (Ph. XXXX or Email: lah993@uowmail.edu.au) who is conducting this research as part of her PhD thesis at the University of Wollongong. If I have any concerns or complaints regarding the way the research is or has been conducted, I can contact the Ethics Officer, Human Research Ethics Committee, Office of Research, University of Wollongong on Ph. (02) 42213386 or Email: rso-ethics@uow.edu.au.

By agreeing to the below I am indicating my consent (please tick):

Participate in this online survey

Participant demographics

Please follow instructions and select the most appropriate response(s) from the range of options o
type free text in the box provided for the following questions.

1.	Ge	nder
	0	Female
	0	Male
		Prefer not to disclose
	0	Prefer to self-describe
		Please specify:
2.	His	ghest level of completed education
	0	Did not complete high school
	0	High school
	0	College/TAFE course (e.g. apprenticeship)
	0	
	0	Masters/Postgraduate degree
		Doctoral degree
3.	Cu	rrent job title:
		ration of employment with current employer:
(Please p years)	rovi	de numeric value to the nearest completed half year, for example, 6 months = 0.5

-		(May take a few seconds to appear)
mjormac		Casual Student
		Continuing
		Visiting / Honorary fellow
	0	Fixed-term contract
		 Current contract duration:
		(Please provide numeric value to the nearest half year, for example,
		6 months = 0.5)

Clinical research demographics

The following questions relate to the specified clinical study outlined in the survey email.

For the purpose of this research a clinical study involves research using human volunteers (also called participants) that is intended to add to medical knowledge. There are two main types of clinical studies: clinical trials (also called interventional studies) and observational studies.

6.	Wh	at health professionals are part of the clinical study team? (Select all that apply)
		Aboriginal and Torres Strait Islander health practitioner
		Audiology
		Chinese Medicine
		Chiropractic
		Dentistry
		Dietetics
		Exercise physiology
		Genetic counselling
		General practice/Physician
		Medical radiation
		Nursing
		Nutrition
		Occupational therapy
		Optometry
		Osteopathy
		Orthotics
		Paramedics
		Pharmacy
		Physiotherapy
		Podiatry
		Prosthetics
		Psychology
		Social work
		Speech pathology
		Other
		 Please specify:
		(If more than one please place a comma between list)

Which of the following best describes the organisation(s) that administers the clinica study?
